

Blog Post Governor's Village

After the first two weeks of our competition, Governor's Hall is finally showing a reduction. There are many speculations that the first two weeks of the competition the construction may have had an effect. After fixing this, we are now in the green.

We will need to do a lot more this upcoming week to take over the lead. Remember to take advantage of natural light and to turn off appliances when not in use. Remember that even if an appliance is plugged in and not in use, it still uses electricity.
